Focusing on the right partner

Allegiant International provides the entire range of personnel required to operate a successful manufacturing operation. Our service offerings and flexible approach allow for our clients to utilize our services and solutions in a manner consistent with their goals, objectives, & budgets.

Allegiant is a trusted and reliable source for personnel and project based services. Allegiant provides a wide range of contingent personnel and a direct hire recruiting solution from our Workforce Division; and Allegiant can provide "need specific" professionals & experts hand selected from our Manufacturing Advisory Division to work on a project basis. We assist our clients to excel in today's challenging business environment by accomplishing their goals at a price under budget.

We believe companies do not need to compromise by choosing between a cost-effective service provider and a strategic partner. We pride ourselves in offering clients the power of "both" the cost-effective advantages of a best-in-class personnel company and the deep strategic capabilities of a top multinational consultancy.

Our services and solutions are delivered through our distinct

Benefits, Highlights, & Features

Woman-Owned Business

Allegiant is a nationally certified women owned and operated business. Our certifications help meet supplier diversity goals and fulfills vendor eligibility requirements for public and government-sponsored projects and business partnerships with set utilization guidelines for minority and women-owned enterprises.

ISO 9001:2008 Certified

Allegiant International is certified to ISO 9001:2008 and compliant with applicable standards outlined in ISO 13485, TS16949, and ISO 10006. Our business is operated and managed with

business divisions, as follows:

Workforce Service and Solutions Division:

•Workforce Services and Solutions :
Staffing, Recruiting, Outsourced Services

"We specialize in human resource solutions & business process outsourcing."

Allegiant's ability to provide the best contingent personnel at the lowest cost is world-class. Our ability to obtain, screen, onboard, and retain employees exceeds the expectations of our clients. We attribute our success to our proprietary operating methods & networks as well as our dedication to our employees. Allegiant is the logical choice if you are looking for the best personnel while reducing your employment costs, reducing your long-term labor & benefit costs, and looking to turn your fixed cost into a variable cost.

Manufacturing Advisory Division:

•Operational and Financial Services :
Manufacturing Performance Improvement

•Quality and Representation Services :
Quality Performance Improvement

•Regulated Industry Services:
Medical device, energy, defense, & environment

"We provide engineers, consultants, & professionals from our full time staff."

Allegiant is a leading provider of manufacturing & business consulting services. Our global community of professionals and experts utilize a hands-on, collaborative, open and flexible approach. This approach embodies "results oriented" thinking. Allegiant can provide you with scalable services, on demand, at any location you desire, to achieve significant results.

Clients of Allegiant become part of a partnership that delivers focused expertise and results. Allegiant is responsive and creates an immediate impact and sustainable impact targeted our clients' specific needs, which result in improved systems and greater profitability.

We can work with any size company, from small and middle market enterprises to fortune 500 institutions, though any stage of their business cycle.

Featured Service:

Operational Performance Improvement

When our clients want increased profit margins and revenues, we tell them to first improve their operational efficiency and the effectiveness of their output.

Operational Performance Improvement is the concept of measuring the output of a particular process or system, then modifying the process or system to increase the output, increase efficiency, and increase the effectiveness of the process or system.

Featured Personnel:

Reg Begin

Director of Operational Performance Improvement

Reg Begin spent over 42 years with General Motors Corporation. His vast career allowed him to gain expertise in multiple areas, including Manufacturing Operations, Quality, Human Resource Management, Materials Management, and Supplier Development. As Business Unit Manager for GM, he has led successful business turn-arounds, and has worked in manufacturing, assembly, materials management, maintenance, and personnel, where he coordinated regional training for all plants. As Senior Manager of Systems Optimization at Worldwide Purchasing, he drove throughput performance improvement and worked with all GM global regions and a broad supplier base. He has worked with over 100 plus suppliers across multiple commodities to improve performance and solidify their delivery and profitability.

He has also worked to entrench and integrate the Theory of Constraint and Lean Manufacturing Principles as a means of

Corporate Social Responsibility

With industry leadership come important responsibilities. As we have grown, we understand the importance of giving back to society, which is a core element of our corporate values. Our Corporate Social Responsibility philosophy starts with a Passion for Making a Difference. Registered in 2007 as a Women Owned and Operated business, Allegiant supports many organizations which support diversity and women, such as the NWBOC ,WBENC, and the WBE.

achieving rapid bottom line results and ensuring optimum performance and competitive strength. Reg has traveled extensively to all global regions and is an accomplished multi-cultural negotiator and leader.

Reg is a certified Kepner-Tregoe Trainer in Problem Solving/Decision Making/Planning, a certified trainer in Program Management the TOC Way, a TOC “Jonah”, and has conducted over 150 training sessions of Synchronous (Lean) Manufacturing and Theory of Constraints.
